

June 23, 2006

FLORIDA SOCIETY FOR HEALTHCARE SECURITY, SAFETY & EMERGENCY MANAGEMENT PROFESSIONALS (FSHSSEMP)

...would like your participation in a Demo of a possible Statewide platform for Emergency Preparedness and Response. FSHSSEMP supports the evaluation of LiveProcess after the interest expressed during the recent annual meeting and conference. LiveProcess has offered to provide a live demo with a simulcast over the web for those unable to attend.

Event Details

Date: June 23 2006

Time: 10am – 11am (web demo)
11am-12noon (discussion/questions)
12noon – 1pm Lunch

Location: Central Florida Fire Academy
PLUS: Live Web Simulcast

Note: Fire Academy seating is limited. Please respond if you will attend in Orlando or over the Web.

Send responses to: lucille@LiveProcess.com

About LIVEPROCESS

LiveProcess is a centralized web-based platform that helps you manage every aspect of your hospital's disaster preparedness plans and response.

From risk evaluation and training to coordinated response, LiveProcess makes it easier and faster than ever to monitor and maintain your healthcare facility's state of readiness.

Through our interactions with FEMA and CDC, numerous state-level public health agencies, hospital associations, and leading hospitals and healthcare providers, we've developed a collaborative system that sets the standard for scope, breadth and depth in disaster planning and response for healthcare.
